254 OLD WHITE LAKE TURNPIKE,
SWAN LAKE, NY 12783

FROM THE DISTRICT DIRECTOR

Choice Christian Greetings to all the Royal Rangers at District Camp 2024!

BATTLE PLAN!

Last year we raised our voices as we declared that God is the Lord in our lives! Our Battle Cry was heard and continues to be heard! This year we go the next step. Did you know that God has a plan for your life? Jeremiah 29:11 says: "For I know the plans I have for you, declares the Lord, plans to prosper you and not to harm you, plans to give you hope and a future". Another verse can be found in Isaiah 55:8 "For my thoughts are not your thoughts, neither are your ways my ways," declares the Lord.

Would you like to know what God's plans are for your life? Would you like to live the life God has prepared for you? It can be a life filled with purpose. It can be a life of power, strength and peace of mind and spirit as you navigate your future.

I hope that during this weekend, you will understand that God is calling you to become the man he wants you to become. If you allow the Holy Spirit to work in you and be your guide, you can fulfill His purpose in you and you will accomplish the things He wants to do through you.

Are you READY?

Are you ready to follow His Battle Plan?

REV. LUIS VELAZQUEZ

District Director - lvelazquez@sedrr.com

SAFETY

**THERE ABSOLUTELY NO GROUND FIRES
PERMITTED AT ANY TIME**

FIRE PREVENTION:

It is the Camp Director's responsibility to minimize the risk to campers at all times. It is the entire staff's responsibility to aid him by being vigilant of hazards throughout the camp. Be on the lookout for frayed or improperly placed electrical wires, overuse of extension cords, litter or dead leaves under or around buildings, collection of combustible material sufficient enough to cause excessive fire load such as paper and cardboard, improper storage of flammable liquids, proper campfire size and location. Be sure the 3 components of fire are not able to combine: oxygen, a burnable material and a source of heat. Do what you can to lessen the possibility of fire. Advise your Outpost Coordinator of a potential hazard or advise the Maintenance Staff directly and then notify your Sectional Commander that you did. It is the Director's responsibility to make sure that Maintenance has followed through with correcting the situation.

FIRE DETECTION:

AC/DC smoke detectors are located in all buildings. You must be vigilant for fire/smoke relying on your own senses of sight, hearing, touch and smell. From time to time you will informally remind the children about detecting fire/smoke through their senses.

CAMP INFORMATION

SAFETY (CONT.)

EXITING-TABERNACLE AND OTHER BUILDINGS:

Be certain that all exits remain unobstructed at all times. Don't allow anything to be moved in front of doors or windows.

EXTINGUISHMENT:

You may be trained in the proper use of a fire extinguisher at the pre-camp training. Remember your first priority is to evacuate the children. Never attempt to fight a large fire without professional help.

CAMP MEDICAL PLAN:

The Health Director or Designee will go over the Camp Medical Plan with staff during Pre-camp meeting.

Discussion will include but may not be limited to the following:

- Daily health surveillance
- Handling Health emergencies and injuries
- Location of residences of Health Director and Designee on site
- Tour of Infirmary
- Location of First Aid Supplies and Equipment

FIRST AID:

All staff are required to hold first aid/CPR certificates and will respond to an injured camper according to their first aid training.

The district First Aid station will be located on the camp field. Adequate first aid supplies are located in the first aid station. A medical room with a refrigerator for medicine safekeeping will be located in the hotel. Every outpost is required to have a first aid kit at their site.

An emergency transport vehicle will be located at the first aid station for any transportation to the hospital. All staff will be informed of the vehicle make, model and location during Pre-camp meeting.

Any accident that requires first aid must be reported to the Camp Health and Safety Director.

SAFETY (CONT.)

BEHAVIORAL AWARENESS:

If a child is behaving poorly they must be put in a "time-out". If the behavior persists after this time out, contact your Sectional Commander or Camp Commander and remove the child from the area to remain with your Sectional Commander, Camp Commander or other qualified staff for supervision. If a child exhibits consistent violent behavior directed toward another child notify your Sectional Commander or Camp Commander. This child may be expelled from the camp.

CHILD ABUSE RECOGNITION AND REPORTING:

Child abuse and/or neglect is a rising concern in our country. Your role as guardian of the children here at camp necessitates that you be vigilant for signs of abuse and/or neglect resulting from circumstances here or at home. Your Commander training included Child abuse recognition. Please refer to your manual for signs of abuse or neglect. If you suspect abuse or neglect, notify the Camp Commander or Health Coordinator. Any allegations occurring here at camp will be reported to the Department of Health by the Camp Commander or the Health Director.

If you suspect the Camp Commander or Health Director of neglect or abuse, you can notify:

CAMP INFORMATION

SAFETY (CONT.)

CAMP SAFETY PLAN:

Although we will discuss the procedures in the Camp Safety Plan during Pre-camp meeting, you are encouraged to read the actual plans. You must be well versed in the plans and confident of your role.

LIGHTNING PLAN:

Thunderstorms, heavy rain, or extreme weather conditions occur often enough in our area. Please give special consideration and be on alert. Know in advance! Follow local weather reports on television or radio.

At first indication of a thunderstorm suspend the activity and seek cover.

Run if necessary.

Do not stand under or near any trees as lightning can follow the roots of the tree.

Get into a building.

Once inside the building, position the children in the center of the building away from windows and doors.

Turn off the lights.

If absolutely no cover is available, have children lay on the ground until the storm passes.

Comfort children as needed.

Do not let children use umbrellas or aluminum bats during a lightning storm.

If someone is struck by lightning, seek immediate medical attention.

GENERAL GUIDELINES

We are responsible for the campers at all times--both on and off site. We have developed the following supervision guidelines which must be followed to ensure the children's safety and well being.

GROUPING CHILDREN

Prior to their arrival, each outpost will develop a roster of children who will be under the direct supervision of the Outpost Commanders. You are accountable for these children at all times. You must know where each child is at all times. It is also imperative that you maintain either visual or verbal contact with your children at all times. You may use your better judgment when making exceptions to this rule. For example: a brief trip to the restroom or to your tents. At these times you must utilize the BUDDY SYSTEM Please conduct an Outpost orientation meeting prior to the camp to go over the information of our safety plan, which includes but is not limited to the information found below.

BUDDY SYSTEM

During your Outpost orientation meeting, you will pair campers in order to implement our BUDDY SYSTEM. Each child in a pair will be attentive to the whereabouts of his BUDDY. When called to do a BUDDY check the children may need to be reminded that they are to look to see if they can make visual contact with their BUDDY. Use this check frequently during swimming, when walking from one location to another and at other times you feel appropriate.

DISCIPLINE

We will utilize the following discipline procedures. You are to use your best judgment when implementing a disciplinary procedure. Do not let your anger get in the way of making a good judgment. When in doubt or if you ever feel too angry or frustrated with a child's behavior, or you feel you may lose control, seek out another staff member to assist you. When an argument breaks out attempt to act as mediator. Speak to the child suggesting an alternate behavior. Speak a second time to the child in a stern voice.

Remove the child from the situation for a short time out.

GENERAL GUIDELINES

CONTINUED.

LOST CAMPER PLAN

When you or a camper's buddy notices a camper is missing, you or the remaining camper must instantly notify the District Staff. If in an area out of hearing distance, you must use your better judgment: either send a pair of buddies for help or mark the area and bring your group with you to seek help. You must act quickly. When called upon to aid in a search, you should group all your children together at your campsite, leaving at least one staff to supervise the remaining campers. If you are designated by your Camp Commander to aid in the search you should immediately begin to:

1. Check the activity area, pool area, ponds, rooms, tents restrooms, cafeteria, game rooms and all places frequented by the camper. Send word to the Camp Office.
2. After a thorough search has been made, If the lost camper(s) has not been found, the Camp Director must be notified.
3. The Camp Director shall get in contact with the Police and the lost camper(s) parents.
4. The District Staff shall be informed of the Police's orders and carry them out.
5. Stay on alert and be aware of any new developments, and follow instructions of the police, Camp Director or your Camp Commander.

GENERAL GUIDELINES

CAMPsites:

The Camp Coordinator will assign sites. For early arrivals we'll try to accommodate each outpost by sections.

PLEASE, ABSOLUTELY NO DIGGING HOLES IN THE GROUND.
